

❁ Summer Ethnobotany 2014 ❁

KuC will pay the following for approved Ethnobotany Certificate applicants:

- Tuition for 3 credit Introduction to Ethnobotany
- Round trip transportation to/from KuC EBOT 100 course and your village, within AK only
- Food, lodging, ground transportation

Summer Ethnobotany Camp Students responsible for:

- Personal items, spending money during course

REQUIRED PREREQUISITES: Students accepted into this course **MUST** be able to: walk independently over rough terrain for a distance of at least 1 mile per day, must be able to climb hills, bend and lift equipment, carry at least 15 pounds of gear, participate and communicate with others in close living quarters and shared space, and tolerate rustic living conditions.

IMPORTANT NOTICE: Should a student need to be transported away from the camp due to behavior or failure to meet the course requirements the **STUDENT WILL BE RESPONSIBLE** for costs involved in personal unscheduled transport.

High School graduates with an interest in learning more about their native flora, traditional uses of these plants, and keeping their traditional knowledge in their home community can 'jump start' their academic and professional career at the Kuskokwim Campus by attending the Summer Ethnobotany Camp. This rigorous summer enrichment opportunity gives students the chance to work and study with scientists from the University of Alaska and local Elders; and complete 3 college credits toward their college degree. A great beginning in the right direction!

The program is primarily for students already in college or ready to enter college in the Fall who wish to enroll in the Certificate in Ethnobotany Program at KuC (see our website <http://www.uaf.edu/drumbeats/ethnobotany>) We also welcome non-traditional students who have graduated from high school but have not taken college courses recently or at all. High school seniors will be accepted on a space-available basis. Students must be 18 or older.

This course may NOT be audited or taken pass/fail.

A typical day at camp...

There are no typical days at camp, but here is an attempt!

7:30am	Wake Up/Breakfast
9:00	Morning class or lab session
10:30	Plant-related field activity
12:00	Lunch
2:00 pm	Elder in Residence, Instruction
4:00	Hiking Excursion
6:00	Dinner
7:00	Evening get-together. Recap of the day, homework, group fun activities
9:00	Personal time
10:00	Hit the sack

There may be days when we will be in the field the entire day, hiking and learning.
